Why we chose it: You know what they say about people who live in glass houses—they're pretty darn cool. Or at least we believe the homeowners of this low-slung modern must be. To wit: A steel-and-glass passageway cantilevers over a reflecting pool outside. Built by Tatum Brown Custom Homes, this mixed-media masterpiece—in glass, steel, and two varieties of natural stone—frames the goings on inside. Call it life imitating art.
